#Naganonbiri

While 2020's new normal brought us lots of time at home, it also led us to appreciate our local areas and comforts of home, and discover new ways to take it easy. We learned the joy of nonbiri—quiet, relaxed, and peaceful time—spending leisure time at home, or coming to appreciate the gentle stillness found in nature.

This year, the Nagano CIRs are asking for photos that reflect the nonbiri moments in your Nagano life. Join us in sharing your photos and stories!
